

Because you play such an active role in protecting your community in so many ways, you have been invited to attend a private harbor tour highlighting Port operations and expansion as well as Port security on Wednesday, March 4.

This two-hour tour will circle the new Commanding Control Center, which houses Harbor security, Coast Guard, Customs, Border Patrol, Homeland Security, the LBPD, LAPD and Port police. This guided tour will spotlight how the harbor is being secured and you are encouraged to ask questions as they come to mind.

This fun, informative cruise will depart on Spirit Cruises from Dock #9 adjacent to Parkers' Lighthouse in Shoreline Village at 3:00 and return a little before 5:00. While on the water, you will be served light refreshments including coffee, soda for your sailing pleasure.

RSVPs are required. Please let me know if you will be attending and, if so, whether or not you will be bringing a guest, which you are welcome to do. You may email me at [westpac@cyberhotline.com](mailto:westpac@cyberhotline.com) or call the WPAC office at 562.432.6754 by Wednesday, February 18 so that I may inform Mr. Macias of an actual head-count well in advance of the tour.

Cheers,  
Lee Adams/Coordinator, Westside Project Area Committee
